

Environmental Reduction Policy

Farm-Wey Produce and Arcadia Fruit Co. LLC is committed to minimizing its environmental footprint & impact through sustainable farming practices, such as the below. We expect our partners to also have a commitment to reducing its environmental impacts as well.

- Recycling and reducing waste wherever possible
- Saving energy through efficient equipment use, responsible fuel management, and energy-saving practices.
- Conserving water, soil, and natural resources through careful planning, responsible irrigation, soil health practices, and protection of the surrounding environment.
- Promoting sustainability by continuously improving farming methods, reducing unnecessary inputs, and supporting long-term productivity of the land.
- Encouraging awareness and responsibility among employees, partners, and suppliers to help maintain environmentally responsible practices throughout our operation.
